STATINTL

MEMORANDUM FOR: Chief, Security Support Division

FROM:

Chief, Operations Support Branch

STAT SUBJECT: Weekly Log

1. Three possible impersonation cases were referred to the FBI via liaison by Operations Support Branch during the week of 12 February 1979.

One incident involved a male in Lancaster, Pennsylvania, who had built a vault in his apartment and demonstrated a knowledge of locks and alarms. This person broke his lease at his apartment, stating that he had to return to work for the CIA. He was also alleged to have introduced another male as "one of the Agency's poison men."

The second case stemmed from an inquiry by the Metropolitan Police Department who had arrested a French national who had reportedly served time for murder and is currently wanted in France on unknown charges. He was arrested for wife-beating and informed the police that he was a CIA agent, although unable to provide any credentials. The police were advised that Subject was not an employee.

The third involved a telephone call from a female in New York City who stated that her date for the evening had suddenly become physically and mentally disoriented and incoherent. He explained to *her* ~~his date~~ that he was a CIA agent who had apparently been surreptitiously drugged.
